## **DETAILED ACTION**

### ***Claim Objections***

Claims 7-10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 7-10 have not been further treated on the merits. Claim 6 is a multiple dependent and as such claims 7-10 could potentially depend on claim 6 thus, they are improper.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #6,273,393 to McCOY. McCOY discloses a formwork including a support structure including a platform (16) defining a surface to cast, a sub-structure (32,47) supporting the platform (16), a plurality of side forms (12) positionable on the platform (16), each side (12) is braced by at least one brace (52) having an adjustment means (18). In reference to claim 2, each brace (52) structure includes an abutment (64) and a strut (54). Regarding claim 6, the system includes a plurality of sets of side forms (12).

### ***Allowable Subject Matter***

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
